## About:

Conical Technologies, based in South Africa, is a dynamic level 2 BEE company, founded in 2008. We have competencies in various sectors within the ICT environment, which allows us to focus on a wide sphere of business.

The Company has established distribution agreements with a number of leading equipment manufacturers ensuring effective and sustainable sales and support channels. These equipment manufacturers cover a wide range of Products and services:

- Cables, connectors and adaptors for RF & Microwave applications
- Optic Fiber cable, custom patch leads and attenuators
- CAT5E & CAT6 Ethernet cables and connector
- RF & Microwave filters and Components
- Ruggedized enclosures
- DC to DC Converters and custom power supply solutions
- Lithium and other battery technology
- Lab & Industrial power supply solutions
- Lightning arestors
- SFP modules
- EMI-RFI absorber solutions

## Power Products

AC to DC Power Supplies  
Configurable Power Supplies  
Din-Rail Power Supplies  
Electronic Loads  
Industrial DC to DC Converters  
Lab Power Supplies  
Lightning Arrestors  
Lithium Batteries  
Medical DC to DC Converters  
Medical Power Supplies  
Railway DC to DC Converters  
Power Factor Correction Modules

## Other Products and services

Gyroscopes  
Optical Network Tester  
Mixed Signal Oscilloscopes  
Signal Generators  
Cable and Antenna Testers  
EMF Monitoring Devices  
Handheld Spectrum Analyzers  
Oscilloscopes  
RF PC Boards  
RF Power Meter  
Rugged Enclosures 19" racks  
Surge Arrestors

**IMPORTANT NOTICE**

**Perfect Vision Dual RG6 Cable has been Telkom approved!**
