

BEE Level 2 Supplier of choice to the, Automation, Electronics, & Mining industries

About Us

Conical Technologies is a leading distributor of advanced electronic components and test systems, serving Southern Africa's industrial automation, power electronics, and communications sectors. Established in 2010, our company has built a strong reputation for technical expertise, responsive support, and long-term partnerships with globally trusted brands.

We specialise in providing RF & Microwave components, high-performance power supplies, test equipment, industrial networking, and IoT solutions — all engineered to meet the demanding requirements of modern industry.

Our Mission

To empower Africa's engineers, system integrators, and manufacturers with reliable, innovative, and efficient technology solutions that drive productivity, performance, and progress.

Our Vision

To be Southern Africa's most trusted technology partner, bridging the gap between global innovation and local industry needs.

Our Values

- Integrity – Honest relationships and ethical business practices.
- Technical Excellence – Deep product knowledge and engineering support.
- Customer Focus – Solutions tailored to each client's unique needs.
- Sustainability – Supporting technologies that enable energy efficiency and responsible growth.

Our Expertise

Conical Technologies is more than a distributor — we are a solutions partner. Our team of engineers provides in-depth product knowledge, application support, and after-sales service to ensure optimal system performance and long-term reliability.

We deliver value through:

- System design consultation
- Product selection and application advice
- Training for sales and technical teams
- After-sales service and repair

Industries We Serve

- Aerospace and Satellite Development
- Industrial Automation
- Mining and Heavy Industry
- Renewable Energy and Power Electronics
- Telecommunications and IoT
- Education and Research

Our Brands and Product Range

RF and Microwave

- WT-Microwave – Custom RF and Microwave filter solutions.
- Anoisson – Quality interconnect solutions, including cable assemblies, connectors and adaptors
- Maury Microwave – Industry leading RF and Microwave solutions
- LTC Microwave – custom RF and Microwave amplifiers and solutions
- A-Info – Antenna solutions

Power and Energy Solutions

- Mibbo Power Supplies – High-efficiency DIN-Rail power supplies from 15W to 960W.
- ITECH Electronic Test Systems – Precision DC power supplies, regenerative loads, and battery test systems.

- Aipu-Power – Point-of-load voltage regulators and DC/DC modules.

- Traco Power – DC/DC Converters, voltage regulators and AC/DC power supplies

Motion Control and Automation

- Veichi Electric – VFDs, and HMI for motion control and automation.

Networking and IoT

- Planet Technology – Industrial-grade Ethernet switches, PoE solutions, and IoT devices.

Connectivity and Components

- Degson – Terminal blocks, connectors, and EV charging components.

Why Choose Conical Technologies

- Authorised Distributor for leading international brands
- Technical Support Team with industry experience
- Local Stock and Fast Delivery on many of our parts
- After-Sales Service and Repairs in Africa
- Trusted by Engineers and Integrators Across Southern Africa

Corporate Social Responsibility

We Support Eco-Children

Conical Technologies proudly supports Eco-Children in Hoedspruit, Limpopo. Through annual financial contributions, we help fund environmental education and sustainable development initiatives that uplift local communities and promote conservation awareness among rural learners.

We Support Hope For Wildlife Helicopter Services

Hope for Wildlife Helicopter Services is a distinguished helicopter company that specializes in wildlife conservation and ecotourism. In addition to their commitment to wildlife conservation and counter-poaching efforts, they also provide exceptional sightseeing and photographic flights over the breathtaking Panorama Route and Greater Kruger surroundings.

Through a reliable and trustworthy helicopter service radically impact and curb the poaching of wildlife in the Greater Kruger area, they make a difference and create conservation awareness wherever they go.
